## Bad Wreck of a Baltimore and Ohio Emigrant Train Near Woodville This Morning

### FIFTY REPORTED BURNED IN CARS

Road Officials However State That Only Thirty-Five Were Injured. Another Wreck of Depot In Detroit, Michigan.

[BY ASSOCIATED PRESS.]  
Valparaiso, Ind., Nov. 12.—It is reported here that fifty out of a trainload of Russian Jews, Servians and Poles numbering one hundred and sixty-seven, were burned to death in the wreck of a train at Woodville, ten miles north of here early this morning.

**Head-End Collision**  
The accident was caused by the crew of a freight train not recognizing the signals of the first section of the emigrant train that the second train was following and they pulled out onto the main track, striking the main section just outside the yards.

**Cars Burned**  
The wrecked immigrant train was entirely consumed and the fifty missing passengers are thought to have perished in the fire. None of the trainmen were injured, except the brakeman on the immigrant train, who died at his post. Both engines were demolished.

**Forty Injured**  
Forty of the injured were hurried on a special train to Chicago, where they were cared for at the Mercy hospital. The second section was composed of six cars and was filled with Russian Jews, Poles and Servians en route to Chicago and the Northwest.

**Passengers Asleep**  
The passengers were asleep when the wreck occurred and many were killed while sleeping. The scenes that followed were heart-rending. Numbers were caught in the wreckage and were unable to release themselves before the flames reached them and were smothered. The cries of

the dying filled the air. Those less seriously injured tried to help the others, but they were not very successful, as the flames drove them back.

**The Injured**  
Twenty injured are still at nearby farmhouses. Some of those are fatally injured. The loss of life is estimated at fifty-two.

**Railroad's Report**  
Chicago, Nov. 12.—This afternoon the officials of the Baltimore & Ohio announced they had received positive information regarding the wreck and that there were only one hundred and thirty-five passengers on the train and that sixty escaped unhurt and thirty-five were injured.

**In Detroit**  
Detroit, Mich., Nov. 12.—One man was killed and several injured, three badly, today when a Michigan Central railroad freight engine ran away and crashed into the Third street depot, tearing down a large section of the structure. The engine was switching in the yards a mile from the station when, it is said, its crew saw a passenger train approaching behind them and thought a collision about to occur, jumped from the engine. It was running at good speed when it dashed into the depot. The dead and injured were employees of the railroad.

**Eleven Injured**  
St. Louis, Mo., Nov. 12.—Two coaches and the sleeping-car on the Missouri Pacific fast mail train from Kansas City were thrown from the track by a broken rail and turned over near Eureka, Mo., last night. Eleven passengers were injured.

## ALVA TRACY WAS HELD FOR TRIAL

On the Charge of Pointing a Gun at McLaughlin Boy Who Was Drowned on Labor Day.

At the conclusion of the preliminary hearing in the action of the State vs. Alva Tracy this morning the court found that there was sufficient evidence against the accused to warrant binding him over for trial and placed his bail at \$500, which was furnished. Tracy is the man whose boat was taken by little Frank McLaughlin and Willie Groat on Labor Day. He is charged with pointing a gun at the boys and being indirectly responsible for the McLaughlin boy's jumping overboard to his death. The Groat boy testified that he saw the accused point the revolver at them and that the bullet struck the water only a few feet from the craft. This was brought out by District Attorney Fisher in his argument. Atty. George Sutherland, representing the defendant, maintained that the boys were five or six hundred feet away; that they could not have seen the short muzzled, dull-finish, 22-caliber revolver that it could not have carried that far; that inasmuch as the Groat boy had asserted that bubbles came from the object after it hit the water, it could have been neither a stone nor bullet, but must have been only one of the numerous snapping turtles that infest those waters. The trial will be held before a jury and is set for the morning of the 17th, though it may take place on the day previous.

## TWENTY YEARS FOR THE FIEND

WHO ASSAULTED LITTLE FOUR-YEAR-OLD MCCARTHY GIRL.

## ENTERED PLEA OF GUILTY

But Doggedly Clung to Assertion That He Did So Because the World Was Against Him.

Charged with a monstrous crime against little four-year-old Florence McCarthy, who is today reported to be very low at the home of her parents, Mr. and Mrs. Dan M. McCarthy, on Wisconsin street, J. C. Trumpower, the evil-looking individual who was captured by the police after an all-night auto race to Belvidere on Saturday, waived examination and pleaded "guilty" in municipal court this morning. He faced the court with his head hanging, but when asked if he had anything to say why sentence should not be pronounced he raised his swarthy visage, upper lip concealed by a half-moon mustache of raven black whose ends drooped to join the close cropped ink fringe about his chin, and with an air of bravado said: "I did not force the child, but I have no money to fight the case. I know the people are spiteful hereabouts, so I have pleaded guilty."

Judge Pfiffel: "I should not want you to plead guilty if you are not guilty. But from the information I have I am convinced that you are guilty and I must say that I have no sympathy, whatsoever, for anyone who can commit such a crime. I think such a person deserves the limit of the law."

Trumpower interrupted at this juncture to reiterate his statement that he was a working man and didn't do what he was charged with.

Twenty Years in Prison. Judge Pfiffel: "It will do neither you nor me no good to say more about this matter, further than to pass sentence. On your plea of guilty the sentence of the court is that you be punished by confinement at the state prison at Waupun at hard labor for the period of twenty years, beginning this day of November, and that on the fourth day of November of each year, your confinement shall be solitary." The fourth of November is the date on which Trumpower is charged in the warrant with committing the crime.

Looks Forward to Liberty. Only the deepest, roving eyes of the prisoner betrayed any noticeable evidence of surprise or chagrin at the measure of the punishment. He stepped unsteadily to the place where Deputy Sheriff Jellman was waiting for him and departed with him from the court-room. Outside he sufficient recovered his composure to muse: "I am only 35 and I will not be very old when I get out. I've only one hand and they can't make me work very hard."

## TERRIBLE TRAGEDY ON STOUGHTON ROAD

Michael Lothe, Burned to Death—Had Been Drinking Whiskey and Spilled Kerosene in Trying to Light Lantern.

Over-indulgence in "liquor" in some of the Janesville taverns and carelessness resulting therefrom are supposed to have led to the frightful death by burning of Michael Lothe of Stoughton last Thursday night. The tragedy occurred on the road which leads from Janesville to Stoughton, via Edgerton, shortly after midnight. The ill-fated man is supposed to have attempted to light a lantern and in so doing to have spilled kerosene on his clothes and to have permitted the same to become ignited. He was driving a hay-rack lumber wagon with a third horse tied in the rear, all the property of Frank Moore of the town of Dunn. As James Burrill, son of John Burrill, neared the east side of W. T. Olson's farm on his way to town, he encountered the team standing in and practically blocking the highway. Receiving no response to his calls to the driver he turned back and got Tony Thompson, a young farmer living in the neighborhood, to assist him in an investigation. As they reached the place where the team was standing, Thompson noticed a thin column of smoke arising from the roadside, and going thither found Lothe, wrapped in the smoldering remnants of his garments. The man was not yet dead and groaned as he was dragged a few feet away, but that was the last and only sound he uttered. The flames had practically consumed all his clothing, save the upper part of his shirt and his shoes and the flesh, as high as his chest, was badly charred. A pint bottle, which had been cracked by the heat was found in the debris and a lantern with a burning globe lay nearby. The wick and burner were in the wagon, also another full bottle of whiskey and a pair of overalls containing a letter from Frank Moore giving directions with regard to some ploughing which the owner was to do. The two young men hastened to communicate with Dr. Trulsen, by telephone, but the physician arrived about eight o'clock. Lothe had expired. The funeral was held at McFarland yesterday. The deceased left two children and is also survived by two brothers, Torge and Ole.

## TWO BOYS PLEADED GUILTY TO CHARGE

Eddie Ryan and Charlie Blow Were Released on Probation This Afternoon.

Eddie Ryan and Charlie Blow, two youths charged with tapping a stranger named Thomas O'Neil near Pierre, S. D., who had been buying them drinks for some seventy or more dollars last Friday evening, appeared in municipal court this afternoon and entered a plea of "guilty." Judge Pfiffel, after carefully considering the case, decided to hold it open with the understanding that the boys should at once take the pledge before Father McGinnity and that they should be considered on probation, henceforth. Any future unlawful act on the part of either of them will result in his being sent at once to the reformatory on the present charge. O'Neil who has also been kept in jail was released. The first thing he did was to buy a coat as he has been in his shirt sleeves since the night of his arrest.

## SELF INTEREST

Our bank is not only safe but it is kept safe by the careful vigilance of the active management. Most banks have good men as officers or directors but it frequently happens that the very men on whom the public depends for safe management do not hold enough stock to have a vital personal interest in the affairs of the bank. There is no interest like self-interest and one of the greatest safeguards that can be thrown around a bank and that which is commonly overlooked is the personal acquisition of large holdings of the bank's stock by the individual officers and directors. Our officers, and directors own two-thirds of the stock in this bank.
